PROFESSIONAL SUMMARY

*Engineering undergraduate with **12+ months of internship experience** in product management, reporting automation, and data analysis, experienced in building KPI dashboards and executive reporting, stakeholder management, and delivering measurable outcomes in fintech and payments.*

EDUCATION

B.Tech. in Production and Industrial Engineering CGPA - 7.47
Punjab Engineering College, Chandigarh *2022 - 2026*

SKILLS

- **Data Analysis & Visualization**: SQL, Python, Alteryx, Tableau, Databricks, Power BI, Advanced MS Excel, PowerPoint, Google Sheets
- **Markets & Trading:** Payment Infrastructure (Basics), Financial Markets, Derivatives,Financial Accounting, Basics of Financial Statement Analysis & Financial Modelling
- **Non Technical Skills:** Root cause analysis(RCA),KPI Reporting & Executive Dashboards, Process Documentation & Standardization
- **Product & Workflow Tools:** Jira, Figma, MixPanel, Google Stitch, Lovable
- **AI Tools Stack:** Claude Code & Cowork, Antigravity, Local LLM's, Cline (Local), NVIDIA NIM's (Nemotron)

EXPERIENCE

Product Intern Jan 2026 – July 2026
GrayQuest Finance, Mumbai

- Owned end-to-end product roadmap and sprint planning for FMS, a B2B SaaS ERP and payment platform for Indian educational institutes, prioritizing features based on client feedback, KPI dashboards, and analytics insights.
- Led client discovery calls and product demos to capture requirements; translated findings into PRDs, user stories, and acceptance criteria - standardizing documentation to improve delivery controls - and drove sprint-level execution with engineering via Jira.
- Built a prototype Partner Dashboard end-to-end - from stakeholder requirement scoping to Figma design - enabling ERP partners to onboard institutes onto compliance-aligned payment gateway, EMI, and auto-debit infrastructure.
- Designed a prototype dashboard automating the full merchant (MID) creation-to-checkout workflow, integrating gateway and ERP partner systems for end-to-end tracking and status auditability.
- Managed stakeholder relationships across engineering, analytics, and business teams to automate internal configurations and deliver client-specific customizations on core payment infrastructure
- Conceptualised a user-intention labelling framework mapping interactions into structured workflows, enabling analytics to track drop-offs and surface data-driven feature priorities.

Market Research and Data Intern Dec 2024 – July 2025
ArabEasy (EZ Works), Gurgaon

- Built Power BI dashboards and automated reporting for clients, delivering KPI reporting and executive-ready deliverables that improved turnaround and stakeholder decision-making.
- Led benchmarking, trend analysis, and financial analysis engagements for top consulting, PE, and VC firms across MENA and Europe, surfacing variance drivers for senior stakeholders.
- Independently owned and delivered ad-hoc market research projects for top-tier clients, generating approximately ₹50 lakhs in monthly revenue while maintaining strict quality standards.
- Curated and processed large datasets for AI/LLM projects, improving data consistency and research accuracy; Major Project – Consult.ai.
- **Recognition:** Received personal recommendation from COO for outstanding project delivery.

PROJECTS

Niytra (Building Prototype) — Where Conversations Create Value Jan 2026 – Ongoing

- Building Niytra, a cross-platform data exchange enabling users to securely monetize personal data through Aadhaar KYC verification and instant UPI payouts.
- Integrating a discussion forum marketplace where topic-based conversations and insights can be traded between users and clients under DPDP-compliant consent protocols.

Consult-AI Initiative Dec 2024 – June 2025

- Contributed to building an AI pipeline for generating consulting reports. Handled data collection, transformation, and structured input design. Supported roadmap execution by leading dashboard division and workflows.

ACADEMIC ACHIEVEMENTS AND AWARDS

- **Top 40 Finalist, Axxela Trading Championship:** Achieved $15,000+ simulated profits in one month under trading restrictions.
- **NTSE Stage 1 Clearance:** Qualified among top students nationally.

POSITIONS OF RESPONSIBILITY

- **SARC Joint Head (Event Coordination):** Co-led the planning and execution of the PEC Global Alumni Meet - 2026.
- **Branch In-Charge (Production & Industrial Engineering):** Coordinated orientation programs (2023–2025), handling planning, logistics, and onboarding. Recognized for smooth execution of large-scale events.
- **Placement & Training Class Representative:** Acted as liaison between students and placement cell; streamlined communication and placement activities.
- **Marketing Subhead (PEC-FEST 2023):** Directed sponsorships, marketing campaigns, and revenue generation for annual college festival.

HOBBIES

- Trading, Games - Poker, Chess, Travelling,
